## CUSTOMER DSL ADVANTAGE SERVICE AGREEMENT

High speed Internet access is always connected to our Internet Backbone (no dialing required). The high-speed connection is *always on* and available (as long as your computer is on), not shared with other users and also free from over time charges. It is perfect for personal web surfing or setting up your own Internet servers.

The undersigned ("Customer") has agreed to subscribe to data Internet Service from North Dakota Telephone Company ("NDTC").

**Security/Firewall Issues:** Customer acknowledges that there are certain security issues that exist in any data network. If Customer has not installed a firewall between it and other data users on the NDTC system, there is a risk that other users on NDTC's data network, and/or, anybody on the WorldWide Internet, may wrongfully or inadvertently access Customer's electronic contents. NDTC has no control over the actions of third parties and therefore makes no warranties that such activities will not occur. **In simple terms, if a firewall is not properly used, anybody anywhere in the world may observe or change what is on any computer(s) attached to the Internet. NDTC strongly recommends that all customers connecting computers or network systems to the Internet or other systems use a firewall as the minimum step in securing their information.**

Customer agrees and warrants that it will not wrongfully access any other NDTC data customer's electronic contents. In the event of Customer's breach of this duty, Customer agrees to indemnify and hold harmless NDTC for any claims, costs, or expenses arising out of such wrongful activity. Any breach of this obligation will subject the responsible individual to damages to the data customer whose rights have been violated, and may constitute grounds for criminal prosecution.

Lifeline and security services are not recommended to be used on or in conjunction with DSL services as the availability and quality of service cannot be guaranteed.

**NDTC may terminate any individual or suspend any member's access to all or any part of the service without notice for conduct that NDTC believes is a violation of this agreement or any policies or guidelines posted by NDTC on the service or for other conduct that NDTC believes harmful to others.**

Customer agrees to hold NDTC, their subsidiaries, officers, directors, agents and any of the members harmless from any liability arising from special, indirect, or consequential damages including but not limited to lost profits, loss of opportunity of any other loss which may result from the use of, misuse of, or lack of availability of NDTC or their facilities.

All DSL connects and reconnects are subject to a credit history check. A deposit may be required upon evaluation.

Operating system disks (i.e. Windows XP) must be present with each computer, or the technicians will not be able to install the Ethernet cards.

**Modem Ownership:** The DSL Modem will remain the property of NDTC and must be returned to NDTC in good working order when service is terminated, or a charge will be incurred.

Customer agrees it is their responsibility to make sure their computer(s) are free of viruses and/or spyware before installation of the DSL service.

<b>Computer Recommendations:</b>	
~ Windows XP	~ 512 Meg RAM
~ 5 Gig Free Hard Drive Space	~ Available Ethernet Connection
~ Pentium IV	~ CD Rom Drive

<b>Other Systems:</b>
~ Linux & Unix operating systems must be supported by the customer.
~ Macintosh systems may be supported by the help desk if the OS is current.

**On all High Speed Internet promotional services, Customer will be required to maintain uninterrupted service for a period of one (1) year. If the High Speed Internet service is disconnected prior to one (1) year, all promotional material will be required to be returned to NDTC or paid for by that customer. At the time this contract is being signed, the \$99.00 installation fee (and Federal Universal Service Charge) is being waived under the condition that DSL service is continued for the time period of one (1) year. If services are discontinued before one (1) year, the Customer will be billed the \$99.00 installation charge and Federal Universal Service Charge.**

CUSTOMER:

\_\_\_\_\_  
[Signature]

\_\_\_\_\_  
[Date]

\_\_\_\_\_  
[Printed or Typewritten Name]

**Customer Information (Please Complete):**

**Customer Name:** \_\_\_\_\_

**Billing Phone Number:** \_\_\_\_\_

**Speed Requested:**  DSL Advantage Economy \$21.95\*\*  
 DSL Advantage \$34.95\*\*  
 DSL Advantage Plus \$54.95\*\*

\*\*plus applicable taxes

Each speed includes 8 mailboxes

**Number of Computers:** \_\_\_\_\_

**Installation Fee:** \$99.00 Waived if service is kept for 1-year.  
Includes: Implementation and deployment of DSL to premise; Installation of modem; Installation of firewall (if purchased); Configuration of one (1) direct connect PC. NDTC will network additional PCs upon request. Contact us for more information.

~ **Standard Installation:** No labor charge.  
Includes: 1) Up to 150ft cable; 2) Cable to be routed through one exterior wall and one interior wall or floor; 3) Connection to a single direct connect computer. Wireless networking is not included.

~ **Wireless Networking/Installation:** NDTC is able to accommodate wireless networking for your home or office. Wireless adapters for the PC and wireless routers are required and can be purchased through NDTC. Additional charges will apply.

~ **Multiple Installation:** With more than one (1) PC, networking charges will apply. Installation cost of networking hardware such as switches, router/firewalls, patch panels and/or network cabling systems with category 5 wires will be billed at \$58.00/hour with a minimum of ¼ hour. Material costs will depend on the customer's particular equipment needs. Configuration of networks and configuration and installation of Ethernet cards will be billed at \$75.00/hour with a minimum of ¼ hour.

**Do you need an Ethernet Card?  No  Yes**  
Purchased from and installed by NDTC at prices starting at \$19.95. Ethernet cards (NIC) are required. Some newer computers may have an Ethernet card already installed. Ethernet cards may be purchased from a vendor other than NDTC, but the customer will be responsible to make sure the card is installed and working.

**Operating system disks available?  No  Yes**  
\*If operating system disks are *not* available, technicians *cannot* install Ethernet cards or USB adapters.

**Would you like to purchase a firewall from NDTC?**  
4-Port Hardware Firewall/Router \$39.95  No  Yes  
4-Port Wireless Firewall/Router \$69.95  No  Yes  
A hardware firewall is recommended for added security to the customer. With out this firewall, there is a risk that other users on the WorldWide Internet may wrongfully or inadvertently access what is on your computer(s) attached to the Internet. Because DSL has a live connection at all times, the risk is higher. Contact us for more information.

**Bill firewall over 1 or 3 months?  1 month  3 months**

**Jack/Material and Miscellaneous Patchcord Charges (if required):** Approximately \$20.

**Disconnect Line used for Dial-up Internet?  No  Yes**  
Phone Number of line being disconnected: \_\_\_\_\_

**DSL Modem:** Will be provided by NDTC at NO cost to the customer. NDTC will retain ownership of the modem.

**Number to contact you for DSL Install:** \_\_\_\_\_  
(cell phone, work phone, etc)

**Static IP Addresses:** One dynamic IP address is included with DSL. Charges apply for additional IP addresses.

Up to (8) FREE e-mail accounts with ALL DSL speeds. Please print clearly 3-15 lower case letters or numbers. **Begin with a letter and do not use symbols or spaces.**
